DESCRIPTION

FlexiRenew is an innovative mattress top surface treatment that enhances your sleeping experience while being environmentally conscious. Utilizing a special eco-friendly stain-releasing technology, GreenFill keeps your mattress clean, natural, and comfortable. The hydrophilic finish provides high resistance against washing, and the micro-touch effect adds flexibility.

PERFORMANCE HIGHLIGHTS

- Highly wash-resistant hydrophilic properties, absorptive power and soil-release effects
- Easy washing off of pigment and fat-containing soil
- Improvement of synthetic textiles' antistatic properties
- Supple handle (micro touch effect)
- Easy handling
- High resistance against washing with hydrophilic finish.
- Eco-friendly stain-releasing technology for a clean and natural appearance.
- Flexibility and comfort through the micro-touch effect.
- Sustainable product made from recycled materials.

ADVANTAGES

01

Natural and eco-friendly appearance and feel.

02

Enhanced durability and longevity with resistance to washing.

03

Flexibility and comfort with the micro-touch effect.

04

Sustainable product contributing to a better future.

05

Wide range of designs to complement any décor.

FEATURES

- High washing durability with hydrophilic finish.
- Eco-friendly stain-releasing technology for natural cleanliness.
- Micro-touch effect for flexibility and comfort.
- Made from eco-friendly materials, a sustainable choice.
