What is NonSlipPro?

NonSlipPro is a specially developed anti-slip finish for bedding fabrics. This innovative technology, when applied to the top surface of your mattress, prevents your bedding from slipping and provides a comfortable sleeping experience.

NONSLIPPRO

Advantages

Enhances Stability: With NonSlipPro, your bedding set stays in place on the mattress surface, reducing the risk of slipping. This results in a more comfortable sleep experience.

Long-Lasting Performance: The special formulation maintains its durability against frequent washing and use. Bedding fabrics treated with NonSlipPro offer long-lasting performance.

Easy Maintenance: The NonSlipPro treatment does not complicate the care of your bedding. It allows for easy washing and use.

Natural Appearance: NonSlipPro's transparent formulation preserves the natural look of your bedding set. It doesn't disrupt your design.

Features

- **Enhanced Stability:** NonSlipPro provides bedding fabrics with a high coefficient of friction, ensuring enhanced stability for your bedding set. Say goodbye to shifting sheets and enjoy a more secure sleep.
- **Chemical Resistance and Durability:** With its chemically resistant formulation, NonSlipPro maintains its performance even after numerous washes. It's built to withstand the rigors of daily use, ensuring longevity.
- **Soft and Skin-Friendly:** NonSlipPro doesn't compromise on comfort. The treated bedding fabric remains soft and gentle against your skin, delivering a cozy sleep experience without any compromises

NONSLIPPRO

Performance Characteristics

Slip Tests: Laboratory tests demonstrate that bedding fabrics treated with NonSlipPro remain stable on the mattress surface.

Durability Tests: NonSlipPro proves its resilience against frequent washing and use.

Comfort Tests: User-based tests indicate that bedding fabrics treated with NonSlipPro provide a comfortable sleep experience.
